

## 2025 ANNUAL REPORT

**FOR 5 DECADES, PDAP HAS BEEN A SOURCE OF HOPE AND RECOVERY FOR TEENS AND FAMILIES ACROSS HOUSTON. THE SUBSTANCES MAY CHANGE OVER TIME, BUT THE NEED REMAINS AND PDAP CONTINUES TO BE HERE.**

75% of Greater Houston High Schoolers have tried alcohol

1 in 4 Area teens have vaped or do vape regularly, and rising

Greatest risk to area Teens is Fentanyl, Marijuana, and Methamphetamines (including Adderall and Ecstasy)

We had called several other teen programs in Houston looking for help for our teen daughter. She was being discharged from inpatient treatment and she needed a support program. We had already maxed out our insurance plan and would be paying out of pocket. After the last place told me it would be \$900 a month, **I felt completely lost. We desperately needed help for our baby girl.**

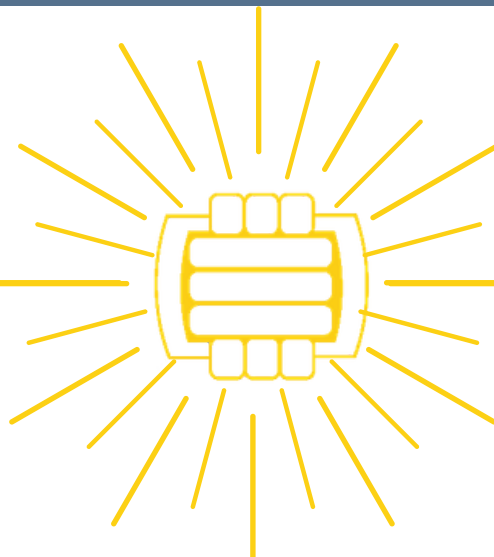

**When I called PDAP, our entire world shifted.** The person I spoke with was calm, caring, and understanding. I told them our story and they told me that no matter what, our daughter would have a place at PDAP, if she wanted it. Thanks to PDAP's sliding-scale fee structure, we have been able to join the program at a rate that we can afford. Our daughter has made friends, we have found support through the active parent group, and our family is slowly, but surely walking the long, slow path toward recovery and sobriety. **We are so grateful for PDAP!**

- PDARENT

### MISSION

To be the most effective prevention and recovery program helping young people and families avoid or recover from the devastating effects of drug and alcohol abuse.

EIN 74-2078429

### VISION

To increase the availability of PDAP services to areas currently under-served, while maintaining prevention and long-term drug and alcohol recovery programs of the highest quality that are readily accessible to Houston area youth and their families.
